Dear Parents/Carers,

**Re: OCR Sports Science- Period 6**

As you know we are entering the final 8 months of your son/daughter's OCR Sports Science studies. As a PE department we are providing maximal opportunities to ensure that the students achieve/exceed their targets grades. This includes regular mini tests, regular written and verbal feedback to students, support with coursework, revision sessions after school/at lunch time and high-paced challenging lessons.

Your son/daughter has been identified as a student who is doing well in their OCR Sports Science course, but with additional support could ensure that they meet/exceed their target grade. Due to this I am writing to you to ask for your support in ensuring that your son/daughter attends **period 6 sessions on THURSDAY after school from 3-4pm** in order to be fully prepared for their OCR Sports Science exam that will be taken on **Wednesday 8th January**. It is these sessions that are going to provide smaller group support, specific to their weaker areas of the curriculum and therefore allowing them to fill gaps from their recent knowledge organiser and midterm tests.

Should you have any questions about the support that your son/daughter is going to receive over the next 8 months then please do not hesitate to contact me.

Yours faithfully

Gaby West  
Head of PE and Vocational
